

Agents: How to Help Your Clients Find Their Dream Home *With AI*

A new feature in OneHome that lets your clients search for homes based on visual inspiration

A Revolutionary Way to Home Search

Picture this: your client is looking for the perfect home that matches their vibe and the lifestyle they're looking for. That might include a backyard that offers more than just outdoor space. It could be their own personal retreat from the world. Whether it's hosting summer barbecues, enjoying quiet mornings with a cup of coffee, or just chasing their dog around, this space will be their sanctuary.

Or maybe they have a vision of cooking and entertaining in a large, inviting kitchen that's filled with the aroma of freshly baked bread. They'll spend lots of time here, making cherished memories with their children, friends, and loved ones.

With OneHome's **first-of-its-kind** AI image home search, real estate matchmaking has never been so easy. Let AI help your clients find their dream home – the new backdrop for their most meaningful moments.

Invite Your Clients to Try it Today

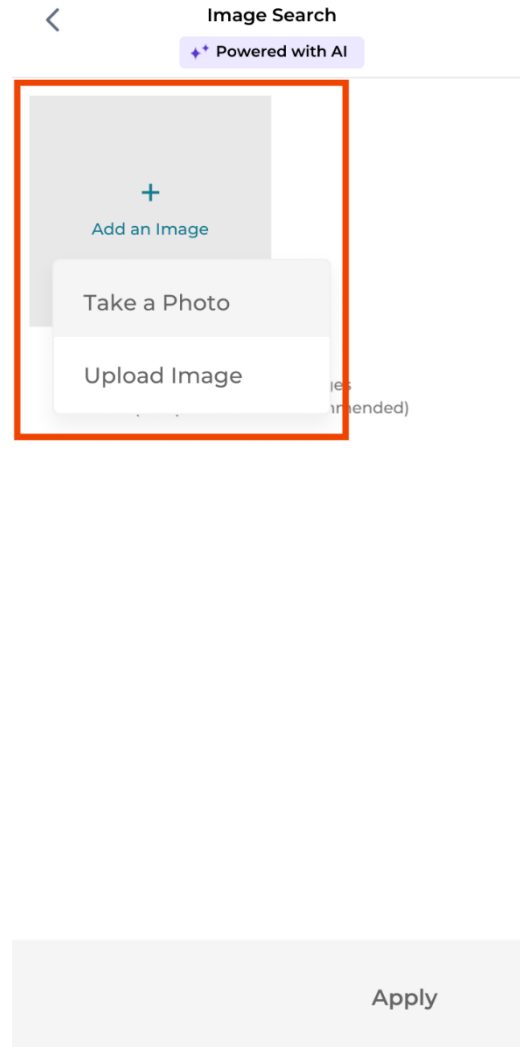

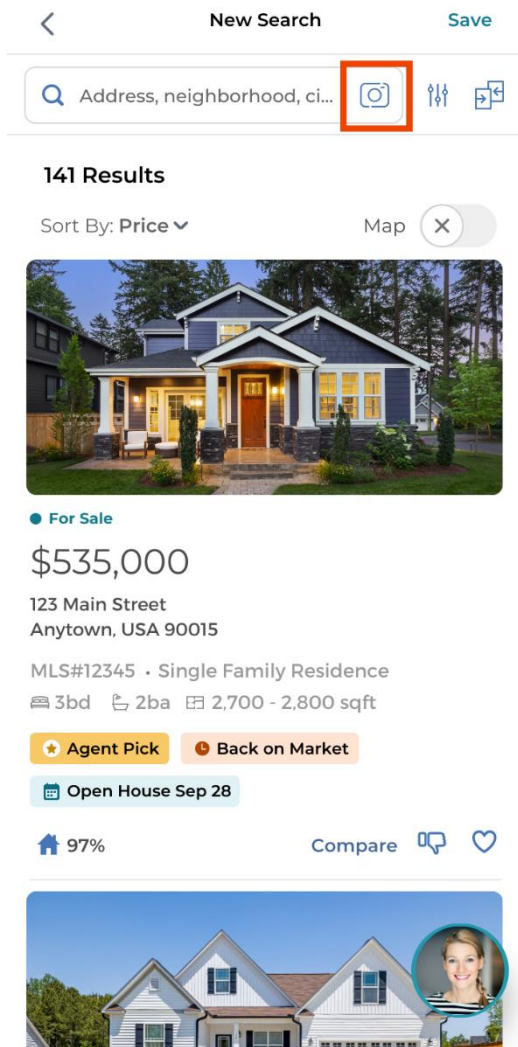

Available to homebuyers, all your client has to do is upload a picture that has the ideal look and feel of a home or property they like, and OneHome will do the rest. OneHome will analyze the picture and present listings that match the characteristics of their dream home. They can add filters such as price, size, amenities, and more to narrow down the search.

Resource to Share with Your Clients

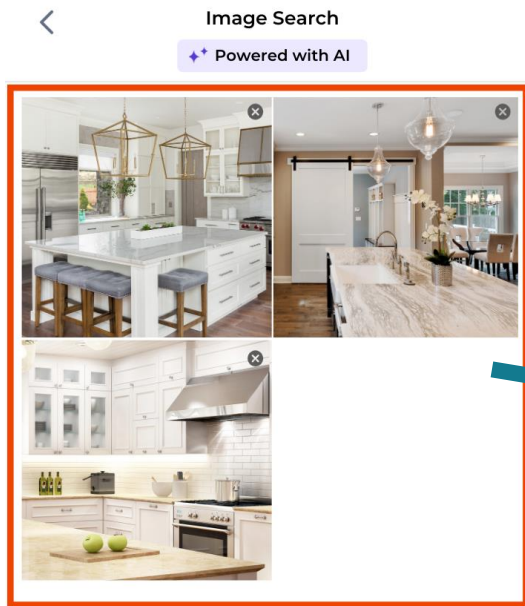

Send them a 1 minute teaser video at clgx.co/myonehome

How Does It Work? Simple.

- Your client can start a new search in OneHome and tap on the camera icon.
- They can choose a picture from their gallery or take a new one of a home or property that inspires them.

- Upload up to three inspirational photos.
- OneHome will analyze the picture and present listings that match the look and feel.
 - Use the filters to refine your search by price, size, amenities, and more.
 - Compare the listings and see important details such as the neighborhood, the schools, the market value, and more.
